## Graham Birch

I am proud to have represented Priestwood & Garth for the last 4 years on Bracknell Forest Council. It has been a fantastic time for the borough which has seen the opening of the new town centre and a visit from the Queen.

I am 39 years old and am very committed to my family.

As such I am extremely passionate about providing the best possible environment for families to thrive. I believe this is done by focusing on all residents in Priestwood & Garth to continue to grow the sense of community that exists. Working both with individual residents and for the whole community.

I will always aim to provide what I believe is best for you and will use my own experience as well as consulting with you to determine what that is.

Because of my scientific background (I have a degree in Genetics) I have been chairman of a working group focusing on Patient experience with local GPs in Bracknell. I am keen to help with the improvement plans the NHS has at a local level as social care and health deliver more joined up services.

Having lived in Bracknell Forest for 37 years I have a good understanding of the challenges that face young people and families – these are becoming greater and we need to stay ahead of these.

I am passionate about my football, I play for a local team and I coach my son's (he's 7) team.

Most importantly I would like the opportunity to continue to provide you with the service that has made Bracknell one of the best places to live in the UK. I just want to help you.

## Alvin Finch

I have lived in Bracknell for over 40 years and have had the privilege of representing the Priestwood and Garth ward for 16 years.

This year it has been an especial honour to serve the community as Mayor.

Since being first elected I have been involved in a variety of council committees and panels: Environment, Leisure, Customer Service, Adult Social Care, Licensing and Planning, to name just some.

I am also an active member of local organisations.

I am aware of the problems of the frailer resident. My wife Diane has worked as a nurse with the elderly in Bracknell and with people with learning disabilities. Our families both live very near us. I work for myself providing home and small business computer support. Previously I was involved in airline travel and defense industries.

I have also worked in the care sector.

I want to see the continued delivery of high-quality services locally and seek to maintain and improve the quality of life locally. To this end, I will be working with the other councillors and the relevant agencies on further alleviating the parking and environmental problems that some residents experience.

I want to ensure that the green spaces we so enjoy in Priestwood and Garth are maintained, and improved.

If elected I will continue to focus on the enhancement of our fantastic community so that it will remain a great place to live, work and play.

## Jennie Green

I have lived in Bracknell for over 45 years; initially in Bullbrook with my parents. In 1978 I spread my wings to set up home in Crown Wood, a few years later moving to Easthampstead and from there to Garth where I have lived for the

last 20 years. I attended Garth Hill School and later Bracknell College before commencing my first full time job as an Accounts Trainee. After a forty-year career in accounting I recently chose early retirement from my final position as Director and Company Secretary of an HR Software company, to enable me to care for a family member.

My immediate family live in the area. My brother in Garth, my mother, daughter and grandson in Bullbrook.

As well as spending time with each of them I own three rescue dogs which I exercise daily at the many fabulous green spaces within our area.

During my spare time I enjoy gardening, various exercise sessions at the Bracknell Leisure Centre and theatre trips to South Hill Park.

I am keen to ensure that Bracknell continues to be one of the best places to live with our revitalised Town Centre; for the continuation of high standards across our green spaces and play areas which we all enjoy.

Being a daughter, mother, grandmother and sister, I am aware of the problems that can be encountered throughout our various generations and want to ensure the continued delivery of high-quality local family focused services.

## Our commitments to you.
